Know-How

Durch das fundierte Know How ist Speetronics GmbH ein verlässlicher Partner bei der Entwicklung von elektronischen Bauteilen. Unser Service beinhaltet eine Gesamtlösung, von der Beratung über Design, Engineering bis hin zur Serienfertigung. Aufgrund der Größe und Struktur, ist Speetronics GmbH flexibel, schnell und kundenorientiert.

Speetronics GmbH ist nach ISO 9001:2000 zertifiziert.

Die von unseren Kunden benötigten Produkte werden unter höchsten Ansprüchen an Qualität, Werkstoffen, Umwelt und Sicherheit gefertigt.

Because of his funded know how Speetronics GmbH is a reliable partner for development of electronic components. Our service included an overall solution from consultation and implementation, engineering to the finished product. Owing to size and structure, Speetronics GmbH is flexible, quick and customer-orientated.

Speetronics GmbH is ISO 9001:2000 certified.

Products were manufactured under highest standards to quality, material, environment and safety.

speetronics[®]
TECHNOLOGIES

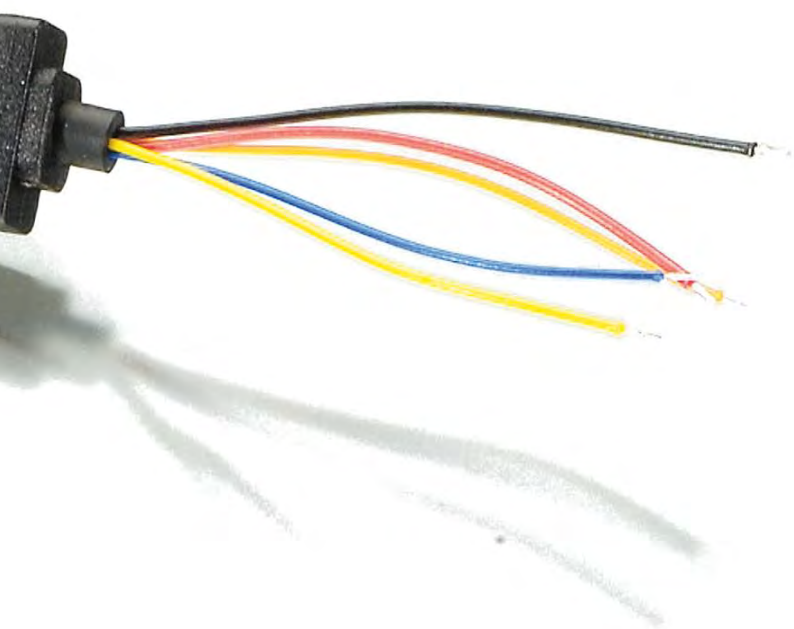

Cable Assemblies

- development of SR to make customers housing
- connector assembly
- customized packaging

development & manufacturing of all kind of cables, e.g.

- special signal cords
- standard main cords for any country
- spiral cords customized dimensions
- customized data cords for IT applications
- computer cables
- HF cables

Cables & accessories available in any colour, length and materials

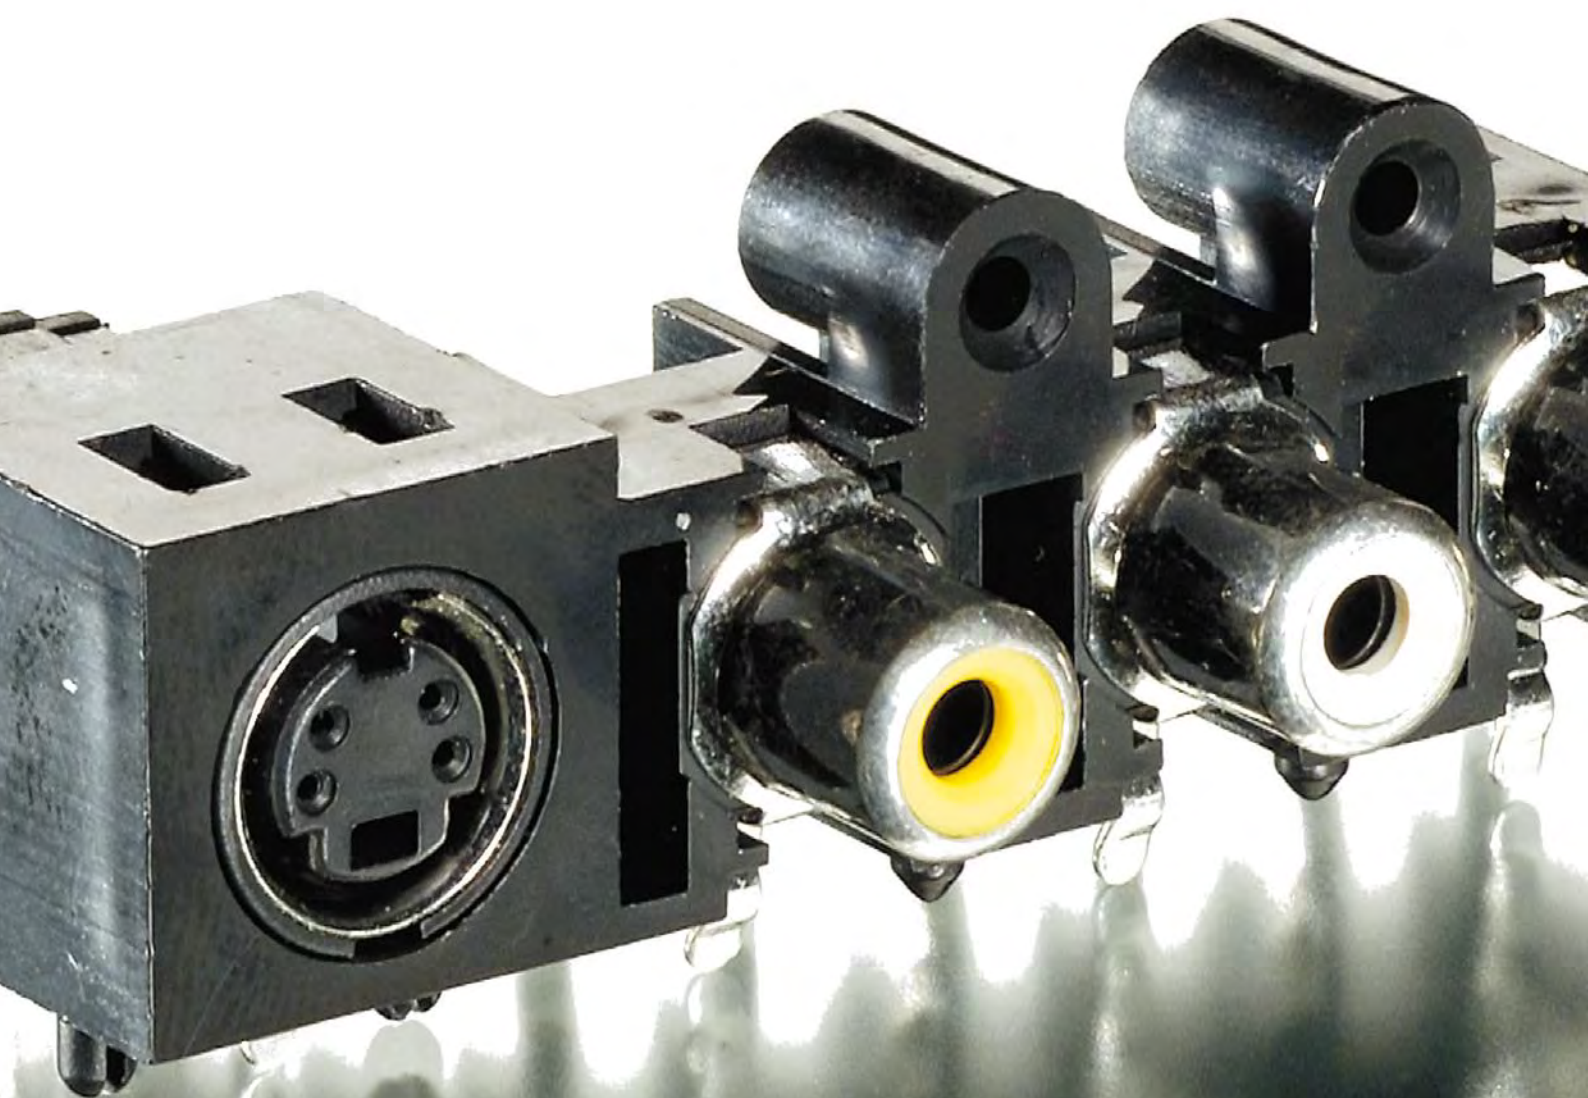

Power Supplies desktop & wall mount

standard & customized manufactured power supplies

- switching power supplies
- linear power supplies, regulated / unregulated
- transformers
- medical power supplies
- battery chargers

Connectors & Overmoldings

- customized adapters
- overmolded types, designed to mate customers housing
- for example as cell phone adapter for car kit cradles
- all kind of customized manufactured connectors
- own developed according customer requirements
- special platings
- different colours available
- various shielding

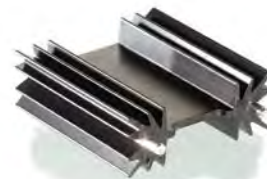

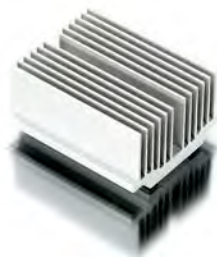

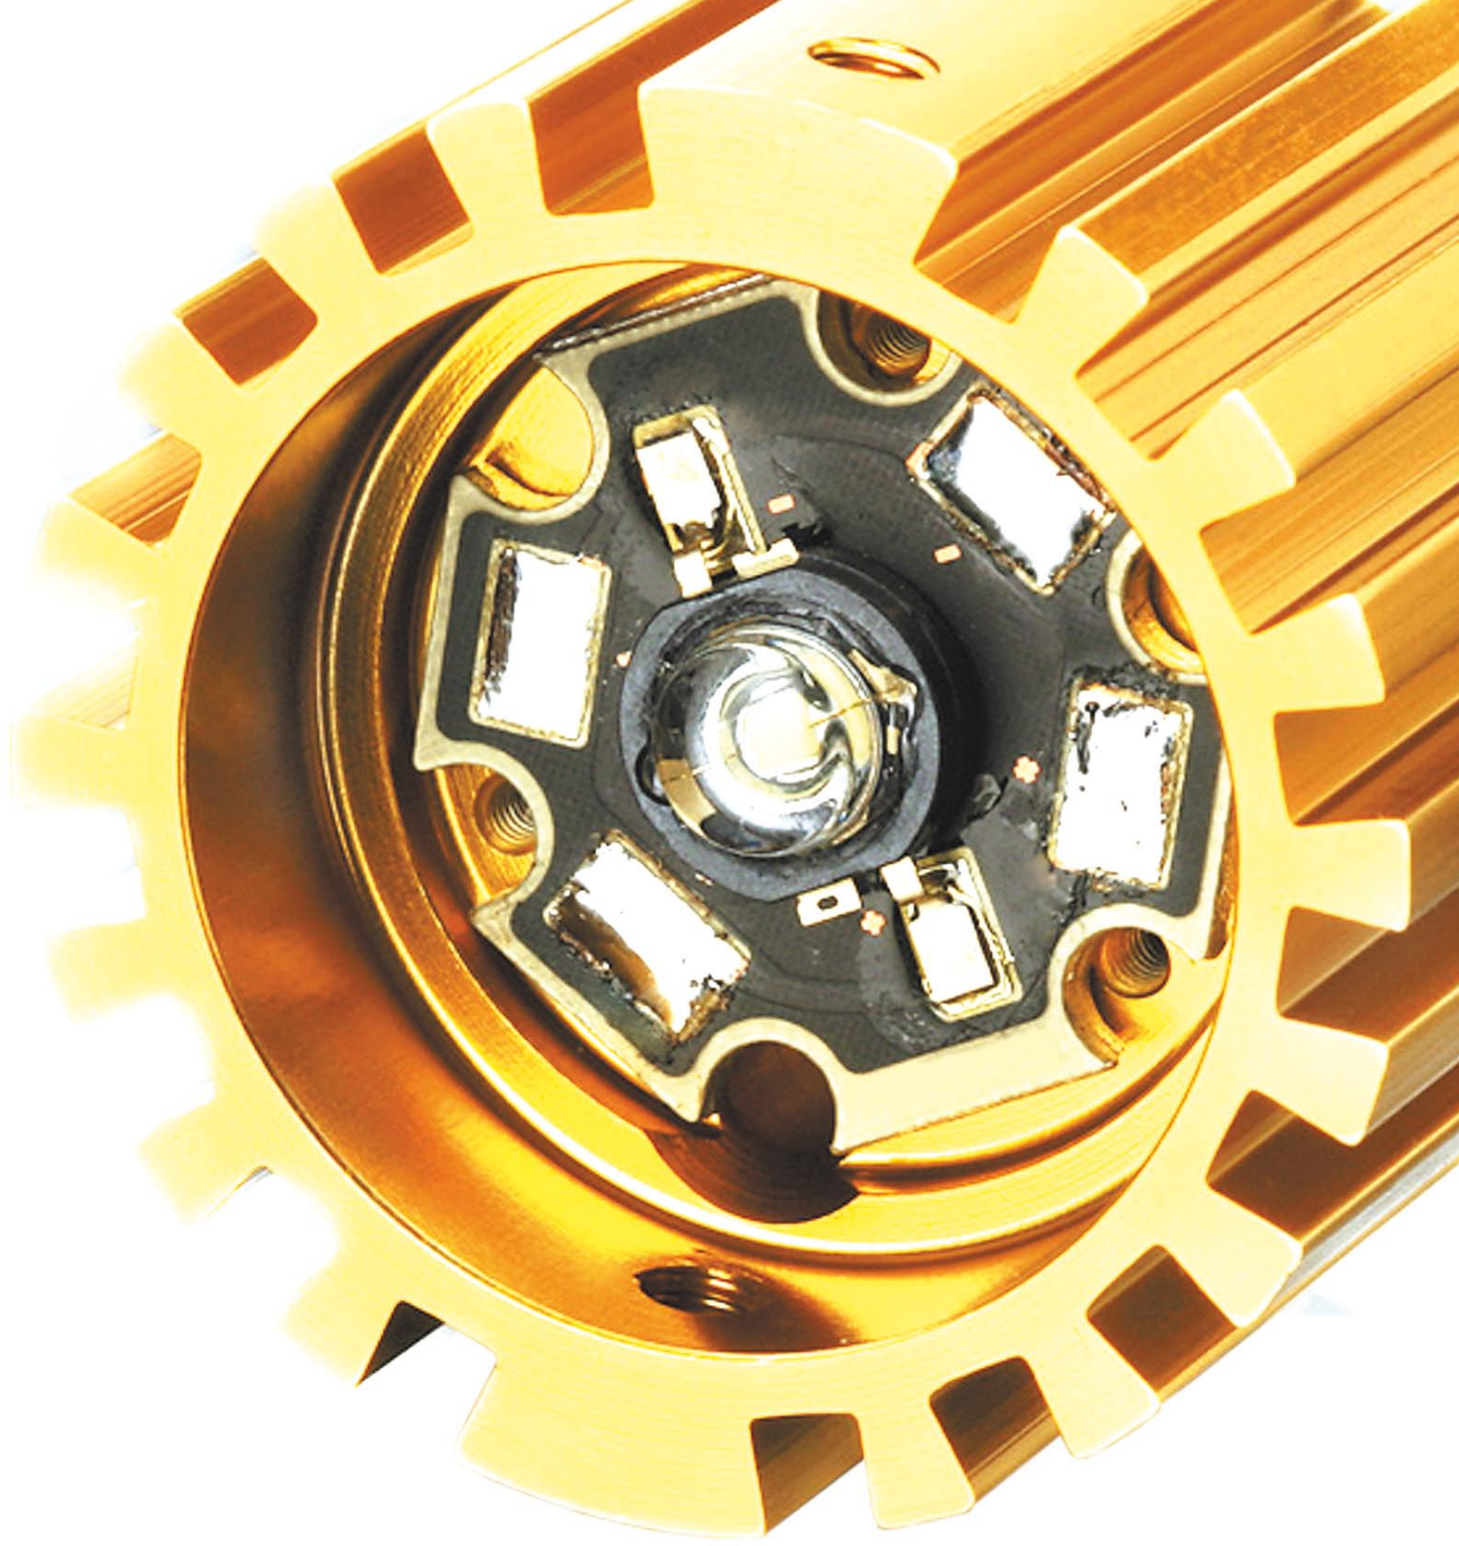

Heatsinks

- special designed to mate Stare Shape
- finished-machined to mate customers Lamp-design for perfect mechanical and electrical fixation
- aluminium, finish: e.g. blank, black anodized or anodizing in different colours possible
- special design available for PCB positioning
- for T0220 and any component case available
- different standard profiles or customer designed
- with cnc supported drillings, threads and cuttings different finish and surfaces

Plastic Housings

- customized plastic housings
- 3D-design
- 3D-simulation
- Prototyping
- Tool and mould production
- Injection

Speetronics Worldwide

Speetronics GmbH ist auf die Entwicklung und Produktion von elektronischen Bauteilen, wie Kühlkörper, Steckverbinder, Kunststoffgehäuse, Schaltnetzteile und Kabelkonfektionen spezialisiert.

Speetronics GmbH entwickelt gemeinsam mit seinen Kunden Sonderteile für die Elektronik.

Als globaler Nischenplayer verfügt Speetronics GmbH über ein weltweites Partnernetzwerk mit Standorten in Österreich, China, Taiwan und Hongkong.

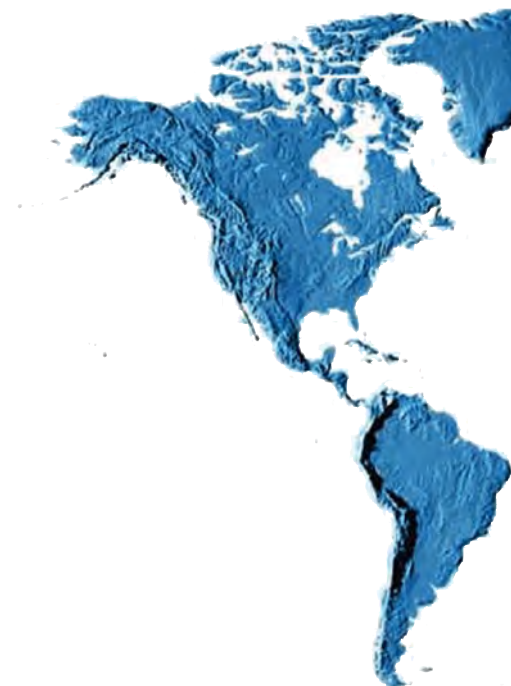

Die Partner von Speetronics GmbH verfügen über modernste Fertigungsanlagen und sind nach ISO 9001:2000 bzw. ISO 14001 zertifiziert.

Speetronics GmbH is specialising in development and production of electronic components. For example heatsinks, connectors, plastics housing, switching power supplies and cable assembly. Speetronics GmbH does development in common with customer for special electronic components.

Speetronics GmbH is a global niche player with worldwide subsidiaries in Austria, China, Taiwan and Hongkong.

Speetronics GmbH partners are equipped with the latest production line and they are ISO 9001:2000 and ISO 14000 certified.
